

Plan Certification Subgroup  
August 22, 2012  
Agenda

- I. Welcome
- II. Opportunity to ask questions and offer clarifications on draft QHP certification recommendations
- III. Overview of dental issues as they relate to the Exchange
- IV. Identification of discussion topics related to offering of dental coverage in the Exchange

Initial proposed discussion questions

- Should dental coverage be offered as a stand alone dental plan or in conjunction with a QHP?
- What are the implications of either option from a consumer perspective?
- If dental coverage is offered as a stand alone dental plan, what certification criteria should apply?
- How can the Exchange best facilitate “apples to apples” comparisons of benefits?
- What other issues should the Subgroup consider related to offering and display of dental coverage options in the Exchange?
